## "THE ANGEL OF DEATH"

**BORN:** 16 March 1911 **DIED:** 7 February 1979

Josef Rudolf Mengele, also known as the Angel of Death was a German SS officer and a physician in the Nazi concentration camp Auschwitz-Birkenau. He initially gained notoriety for being one of the SS physicians who supervised the selection of arriving transports of prisoners, determining who was to be killed and who was to become a forced labourer, but is far more infamous for performing grisly human experiments on camp inmates, for which Mengele was called the "Angel of Death". He survived the war, and after a period living incognito in Germany he fled to South America, where he evaded capture for the rest of his life despite being hunted as a Nazi war criminal.
